ABOUT MKS PROJECT MANAGEMENT COMPANY

We **MKS PROJECT MANAGEMENT COMPANY Nigeria Limited**, a project management company We are one of the specialized project management company (PMC) in existence for over a decade in the entire African Continent.

We are very specific in managing projects in FMCG companies like oils & fats, Soap & Detergents, Oleo chemicals, Cosmetic and other manufacturing companies. We used to take the green field projects and provide world class solution from concept to commissioning (C 2 C).

ABOUT MKS PROJECT MANAGEMENT COMPANY

We are highly equipped to source the technology from any world class company & various International vendors and provide you on in a highly affordable offer.

Secondly we also design the process, conceptualize and make feasibility report of the projects. We help the client to source the world class technology at very optimum cost.

We have a designing team in Nigeria and abroad to design the BOP (balance of factory, plant).

We design the process, integration of various plant and utilities.

ABOUT MKS PROJECT MANAGEMENT COMPANY

In addition to this we have a highly skilled engineering team who is capable of taking care of civil, mechanical, electrical, Instrumentation, automation jobs.

We also provide highly skilled erection and commissioning team. We can Install & commission all type of steel structure, process plants and equipment's. We also handle the EPC project for utilities like power plant, boiler, ETP and WTP etc.

We can design the entire factory which include process, engineering, quality control lab, packing machines, warehouse, fire & safety, and other facilities which is related to a successful operation.

ABOUT MKS PROJECT MANAGEMENT COMPANY

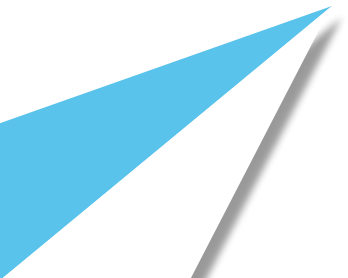

HR Process: We are expert in designing of process SOP's, HR process and Organogram. We will help the companies for recruitment of skilled manpower.

Sales Agreement: We will help the client to design the contract document which include payment terms, supplier & client scope, performance guarantees, penalty clause etc.

In short, we are a ONE POINT solution for the factories and business from Concept to Commissioning C 2 C.

02 Our Workforce

OUR WORKFORCE

Project Managers: Our project managers are responsible for overseeing the entire project from planning and design to implementation and Commissioning. They are experienced in working with cross-functional teams and ensuring that projects are completed on time, within budget, and to the satisfaction of our clients.

Technical Specialists: Our technical specialists are experts in their respective fields, with over 25 years of experience in project management and technical implementation.

This team consist of experts in the field of structural design, process designer, Mechanical engineering and Utilities, Electrical & Automation.

They provide technical expertise and guidance to the project teams ensuring that all technical aspects of the project are fully understood and executed to the highest standards. We have designing team in Nigeria as well as in India.

OUR WORKFORCE

Business Analysts: Our business analysts work closely with our clients to understand their requirements and identify opportunities for improvement. They are skilled in process mapping, requirements gathering, and data analysis, and use this knowledge to develop innovative solutions that deliver real business value.

Quality Assurance Specialists: Our quality assurance specialists ensure that all deliverables meet the highest standards of quality and compliance. They work closely with project teams to develop testing strategies, perform testing, and manage defects, ensuring that all deliverables are thoroughly tested and meet the expectations of our clients.

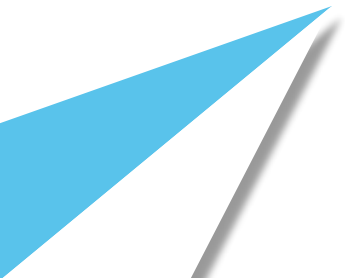

OUR WORKFORCE

Support Staff: Our support staff includes administrative assistants, financial analysts, and other professionals who provide critical support to our project teams. They ensure that projects run smoothly by managing schedules, budgets, and resources, and provide ongoing support to our clients and project teams.
